VACCINATION SCHEDULE FOR:

Congratulations on the new addition to your family! The first few weeks at a new home are going to be the best and most confusing time for you and your pet. We have assembled a few good ideas to help with this transition in your kitten pack. Please feel free to call or email us with questions. Each visit focuses on a complete physical, consultation, advise, and the correct protection against viruses, internal and external parasites and zoonotic (contagious) diseases.

At _____ weeks old on _____: Weight: _____

***Complete physical exam, stool exam, ERC #1, Deworm #1 for parasites, start flea/heartworm prevention.**

At _____ weeks old on _____:Weight: _____

*** Complete physical exam,FELV/FIV Combo test, Deworm #2 for parasites, ERC #2, FELV #1.**

At _____ weeks old on _____:Weight: _____

***Complete Physical, ERC #3, FELV #2, Stool exam**

At _____ weeks old on _____:Weight: _____

***Complete Physical, ERC #4, Rabies.**

It is very important to keep track of your kitty's appointment dates. After they have gone through their kitten series, physical exam, consultation, vaccines, blood work, stool exam are given yearly. You will be notified when they are due. These checkups will help us keep up to date on the life of your pet and catch anything out of the ordinary upon exam.
